Axessline
Outlet Conference

■ 935-T2UD

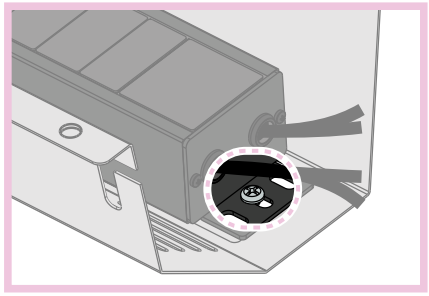

1 DECIDE & POSITION POWER STRIP

Position the Axessline power strip on a compatible tray and align the holes of the power strip to the holes of the tray. Make sure it aligns on both sides.

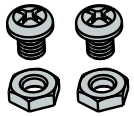

2 FIXATE TRAY TO SURFACE

For this step, **2x** M6 nuts & **2x** M6x8 screws are needed to fixate the power strip to the compatible tray (See **C**).

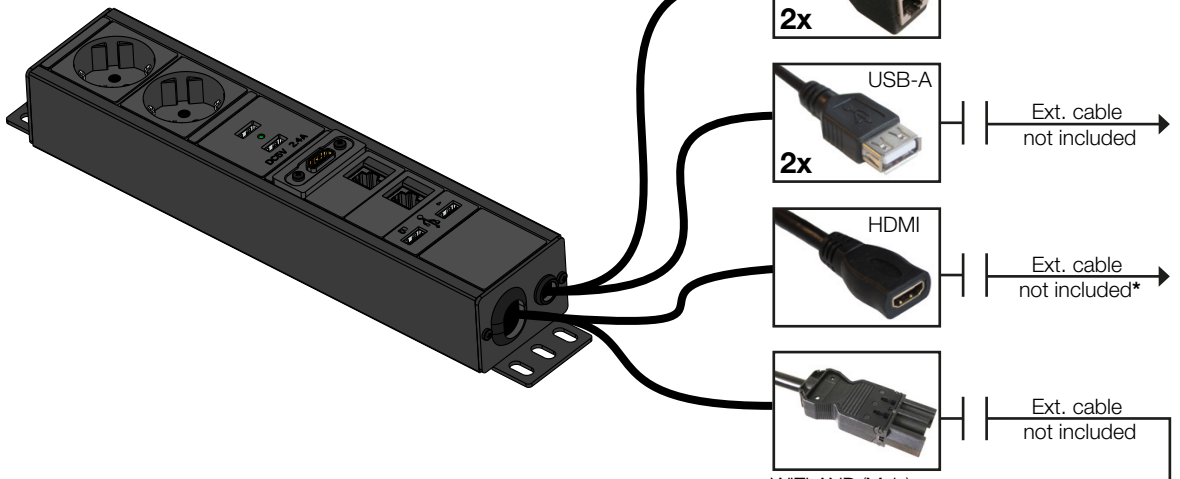

Not included

3 CONNECT

Connect cables to corresponding external components.

*Considerations for HDMI usage: One should not exceed a cable length of 8-10 meters. In such cases, amplifiers should be used. Factors that affect the signal include: cable quality (1), contacts (2), data amount/resolution (3) and source strength (5).
