

Axessline Duo 30

935-TC30
 935-TC30W
 935-TC30B

CONTENT:

- 1** MILL
Mill a hole in the table according to the correct dimensions. See **!**

- 2** INSERT
Insert Axessline Duo into the milled hole. It must be inserted vertically into the hole.

- !** HOLE CUT-OUT DIMENSION

- !!** FOR FLUSH-MOUNT
Check against each specific sample for each respective individual installation. Milling for flush-mount is at your own risk and responsibility.

- 3** FIXATE SCREWS
Open the lid and use the two included screws to carefully fixate the product to the table.

Once the screw touches the edge, begin fastening the second screw until it touches the other edge. **Don't fasten it further than that.**

- 4** READY TO BE USED
Once all steps are completed, the product should be ready to be used. Be sure to pair with the right accessories. Visit our website to find all possible accessories.
