**Headset Holder**

The holder is assembled to the toolbar without any use of tools and fits the majority of headsets on the market.

- 1 Simply hook the holder to the upper toolbar T-slot and leave it resting by the inner edge of the Conceptum toolbar.

- 2 Consider the positioning which allows easy access. Tilt the holder to easy the re-positioning.

- 3 The **Headset Holder** is now ready to be used. Adjust as needed and hang the headset of your choice.
