

Turn-O-Flex Laptop Stand

by
Kondator

Elegant and functional design.

Rotational disc under the bottom plate for stable positioning at the desired angle of descent.

Allow yourself good comfort outside of the office. With small additions, even your portable computer becomes an ergonomically good workplace.

Portable & uniquely rotational!

Turn-O-Flex is a portable support for notebook computers which can fit in your computer bag. Adjustable to six optional positions for desired angle and working height with a uniquely rotational (360°) disc under the support. Can be complemented with an external keyboard for a convenient work position and good comfort.
